

## SMART DB FOR DATAWAREHOUSING

Oracle Database 11g is a comprehensive database platform for data warehousing and business intelligence that combines industry-leading scalability and performance, deeply integrated analytics, and embedded integration and data-quality -- all in a single platform running on a reliable, low-cost grid infrastructure.

Oracle Database 11g provides best-of breed functionality for data warehouses and data marts, with proven scalability to 100's of terabytes and record-breaking performance. This needs would be optimized also by built-in database features option such as **Partitioning** and **Advanced Compression**. It also provides a uniquely integrated platform for analytics; by embedding OLAP, Data Mining, and statistical capabilities directly into the database, Oracle delivers all of the functionality of standalone analytic engines with the enterprise scalability, security, and reliability of an Oracle Database.

Since data integration is a core requirement of any data warehouse, Oracle Database 11g includes Oracle Warehouse Builder, a leading ETL tool that utilizes Oracle's scalable data transformation and heterogeneous data-access capabilities.

This event provides an overview of Oracle's capabilities for data warehousing, and discusses the key features and technologies by which Oracle-based business intelligence and data warehouse systems easily integrate information, perform fast queries, scale to very large data volumes and analyze any data.

Come to our event to discover more on how the solution can help you. This invitation is limited. Please register today!

EVENT	SMART DB FOR DATAWAREHOUSING
Date	Thursday – April 22, 2010
Time	12.00 – 16.30
Venue	Bromo Room   Grand Hyatt Hotel
Address	Jl. MH Thamrin kav 28-30, Jakarta 10350
Who should attend	CIO, IT General Manager, IT Division Manager

### AGENDA :

- **12:00 – 13:00 : Registration and Lunch**
- **13:00 – 13:15 : Welcome Speech**  
Wiranto, Sales Director, Mitra Integrasi Informatika
- **13:15 – 14:30 : Overview & Demo: Datawarehouse & Business Intelligence**  
by Andreas Ginting, Presales Consultant, Mitra Integrasi Informatika
- **14:30 – 15:30 : Oracle11g Database Features: The Smart DB for Datawarehouse**  
Arief Gunawan, Business Manager, Mitra Integrasi Informatika
- **15:30 – 16:30 : Technology For Better Business Outcomes**  
Suparno, Product Support, Mitra Integrasi Informatika
- **16:30 : Closing**

### Note :

**This invitation is very limited. Please register early by replying with the filled registration form. Please bring your business card.**
