Selain perbankan, sektor minyak dan gas, dan telekomunikasi juga memiliki peluang yang besar untuk disasar. Perseroan juga akan terus meningkatkan jangkauan pemasaran pada segmen-semen yang selama ini belum menjadi pasar utama seperti e-commerce dan keuangan digital.

The need for solution and consulting in this sector has increased sharply up to this first semester, previously the average portion of the banking sector was only 35%. Beside the banking sector, oil & gas, and telecommunications sectors also have great opportunities to be targeted. The Company will also continue to increase its marketing coverage for the segments which have not become major market, such as e-commerce and fintech.

<p>Pendapatan MTDL dari <i>Cloud</i> diperkirakan akan terus naik karena saat ini banyak perusahaan yang masih dalam tahap awal untuk beralih ke <i>Cloud</i>. Hal ini juga didukung oleh tren beralih ke langganan berbasis <i>Cloud</i> yang semakin banyak diminati. Karena kebutuhan pelanggan akan solusi <i>Cloud</i> semakin tinggi, MTDL telah mempersiapkan divisi khusus yang terdiri dari para ahli dan pakar untuk membantu pelanggan meraih manfaat optimal dari solusi <i>Cloud</i> atau aplikasi berbasis <i>Cloud</i> lainnya. Tim ini dapat mempercepat transfer pengetahuan dan keahlian serta memberikan fokus pada area <i>pre-sales</i> dan implementasi.</p>	<p>MTDL revenue from the Cloud is expected to increase since many companies are still in the early stages of switching to Cloud technology. Unit bisnis Distribusi Digital berhasil membukukan pendapatan sebesar Rp 7,4 triliun di semester pertama tahun 2022.
